

Hang Time

Biodegradable Ready-To-Use Industrial Strength Foaming Cleaner

Hang Time can be used on all surfaces not harmed by water. Its non acid, sweet smelling formula is user friendly and safe. It has a foaming agent that clings to vertical surfaces. Hang time can also be used in foam guns to clean larger areas.

Hang Time cleans all surfaces not harmed by water. To use: spray or squeeze on. Agitate with a wet rag or coarse sponge. Rinse or wipe off. Examples:

Bathrooms(toilets, urinals, sinks, fixtures, walls, showers)

<p>1. Squeeze or spray Hang Time into the toilet bowl and urinal. 2. Swab with a bowl brush</p>	<p>3. Spray around the bowl and urinal. Agitate if needed and wipe clean.</p>	<p>4. Spray or squeeze Hang Time onto the surface to be cleaned.</p>	<p>5. Let the Clinging Foam work for a few seconds. Agitate if necessary and wipe off.</p>
			

Hang Time can also be used in Kaivac cleaning machines
