

GORILLA XDX CLEANS CONCRETE AND ASPHALT AREAS WITH NO SCRUBBING

Gorilla XDX features an environmentally friendly formula that blasts through oil stains without the use of acids or caustics. This biodegradable, non-flammable product removes petroleum based soil from concrete or asphalt without scrubbing. Gorilla XDX breaks down the oil's hydrocarbon chain with a unique combination of high grade surfactants and oil eating bacteria. Simply follow the directions below.

Wet Method where rinsing is available:

- 1) Attach a spray top (pump sprayers may also be used) and adjust it to a heavy mist.
- 2) When dry, rinse with a bucket of water, hose, or pressure washer.
- 3) Gorilla XDX will not interfere with oil separators.

Dry Method where rinsing is prohibited:

- 1) Attach a spray top (pump sprayers may also be used) and adjust it to a heavy mist.
- 2) Spray directly on dirty gas pads particularly on heavy oil spots.
- 3) Gorilla XDX will gradually break down the hydrocarbon chain and dissipate the oil without rinsing or scrubbing.
- 4) For immediate results, apply and wipe clean with an absorbent pad or a cloth.
- 5) Agitating with a deck brush will also speed up the process.
- 6) Unlike bio-organic dry powders, Gorilla XDX can be used in damp or wet conditions and will not leave a gummy residue that gets tracked into the stores.

Gorilla XDX Blows Away Dry Organic Powdered Cleaners Like the Wind!

Gorilla XDX totally removes heavy oil stains that brush in organic powdered cleaners won't touch. Run the numbers. On smooth concrete Gorilla XDX costs about 60% less to do the job. On rough concrete, the savings is even larger. Gorilla XDX works faster and requires less labor to apply and activate. Actual photos with time lines are followed by a blow by blow comparison below.

GORILLA XDX CONCRETE CLEANER

- Removes heavy oil stains
- Removes dirt and grime
- Works great with rinsing
- Can be applied to a wet surface
- Wind does not affect application
- Biodegradable and non-toxic
- Contains Oil Eating Bacteria
- Can use gas pads immediately
- Works long after application
- Noticeable improvement immediately
- Does not absorb oil
- Can apply and walk away
- Costs about 85 cents to clean a pad
- Does not artificially whiten pads
- Works great on Asphalt

DRY POWDERED CLEANERS

- Does not remove heavy oil
- Won't cut conventional soil
- Water creates a gummy paste
- Must be applied to dry surface
- Can't apply when windy
- Biodegradable and non-toxic
- Contains Oil Eating Bacteria
- Can use gas pads immediately
- Works long after application
- Improvement within 24 hours
- Does not absorb oil
- Can apply and walk away
- Costs about \$8 to clean a pad
- Leaves a white powder look
- Not for use on asphalt

Gorilla XDX is easy on the environment and tough on grease. It is the safest, fastest, most effective way to clean gas pads and parking areas.
