

# Garage Gorilla® Gas Pump Cleaner

Garage Gorilla cuts through diesel fuel, heavy grease, and road grime.

Environmentally Friendly!

## To clean fuel pumps:

- 1** Spray the hose starting at the top and working your way to the pump handle. Wipe it clean with a damp towel.
- 2** Remove pump handle. Spray and wipe handle and nozzle.
- 3** Spray pump handle holder area. Wipe clean.
- 4** Spray a small amount of the cleaner onto a wet, clean towel and wipe the pump face & sides clean.

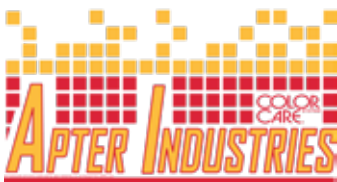

## To clean concrete pump bases:

- 1** Using the squeeze cap, squeeze a small amount of the cleaner onto the concrete surrounding the pump.
- 2** Wait for the area to dry. Agitate heavily soiled areas with a deck brush.
- 3** Hose off or rinse until clean.

## HELPFUL HINTS:

1. A damp clean towel works the best.
2. To clean pump faces, spray the product directly onto a damp towel, then wipe.
3. In cold temperatures, use a towel that has been immersed in warm water.
