

# Red Glass and Shiny Surface Cleaner

Cleans glass, Plexiglas, cooler doors, deli cases, stainless steel, mirrors and porcelain.

Available in 12 oz., 1 gallon and 5 gallon concentrate.

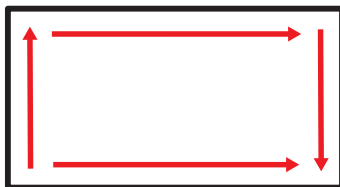

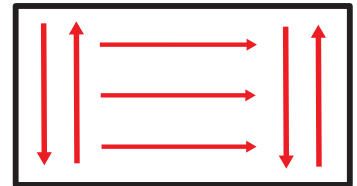

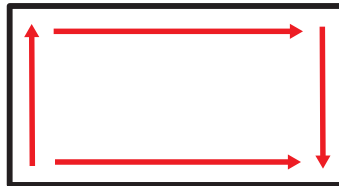

**1** Lightly spray the entire surface you want to clean.

**2** Using a clean, dry paper towel or cloth, wipe around the edges of the surface to be cleaned.

**3** Wipe surface from side to side. Then wipe from top to bottom in an up and down motion.

**4** Go back around the edges for a final wipe.

## Helpful Hints

1. Paper towels yield the best results. (newspaper also works)
2. If your paper towel is dirty it will push the dirt around and cause streaking.
3. If your towel is too saturated use a clean and dry one to prevent streaking.
4. To clean large windows or surfaces break the area down in small, manageable squares.
5. To clean smaller areas it is best to spray the product directly onto the towel or cloth.
