

# Ready-To-Use Glass Cleaner

Streak free cleaning for windows, cooler doors, Plexiglas, mirrors, and all other areas not harmed by water.

## **DIRECTIONS:**

- 1) Lightly spray the entire surface you want to clean.
- 2) Using a clean, dry paper towel or cloth, wipe around the edges of the surface to be cleaned.
- 3) Wipe surface from side to side. Then wipe from top to bottom in an up and down motion.
- 4) Go back around the edges for a final wipe.

## **Helpful Hints:**

- ✓ Paper towels yield the best results (newspaper also works).
- ✓ If your paper towel is dirty, it will push the dirt around and cause streaking.
- ✓ If your towel is too saturated use a clean and dry one to prevent streaking.
- ✓ To clean large windows or surfaces, break down in small, manageable squares.
